ENIAC Explores Brazil, Is Magist the Right Partner?

INSIGHTS / ANALYSIS / RECOMMENDATION

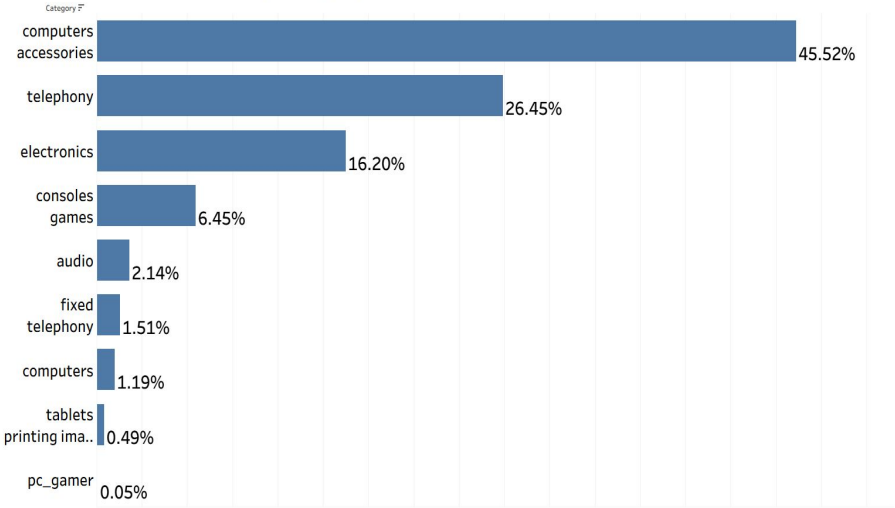

RIGHT PARTNER.
BIGGER OPPORTUNITIES.

Product fit: “Premium Product, Budget Aisle”

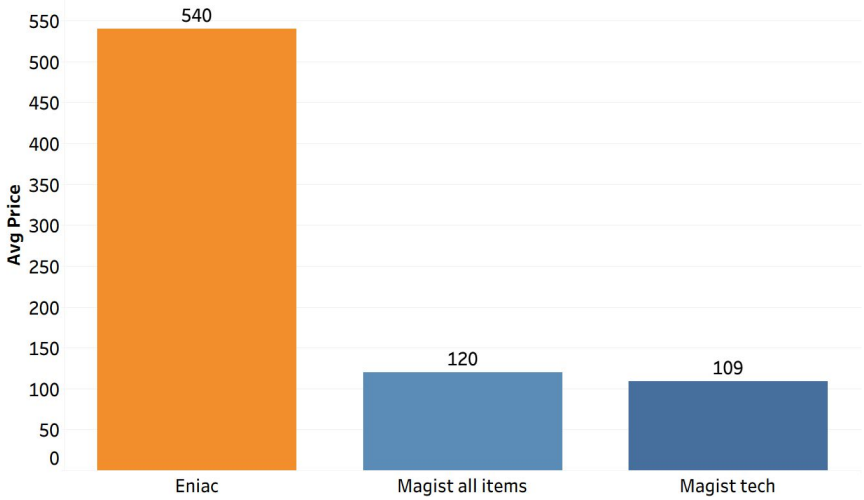

Are tech products and high-end items a strong fit on Magist?

Answer : Tech is only about **15%** of **Magist**’s item sold, and its average price is about a fifth of Eniac’s.

Share of tech items sold, by category (16,969 items)

Eniac’s average item costs about 5x Magist’s average tech item

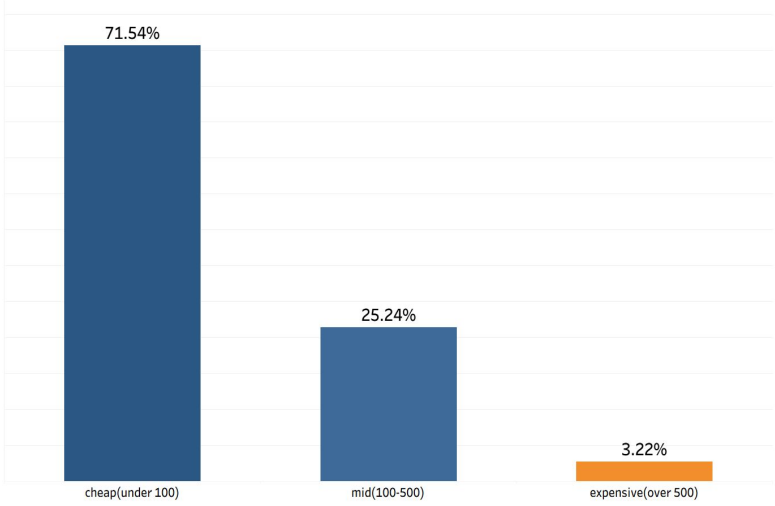

“**Eniac: 100%** of its catalogue is tech”

The avg price comparison is in Euro €

Are **Magist**'s tech customers happy, and do they buy at **Eniac**'s prices?

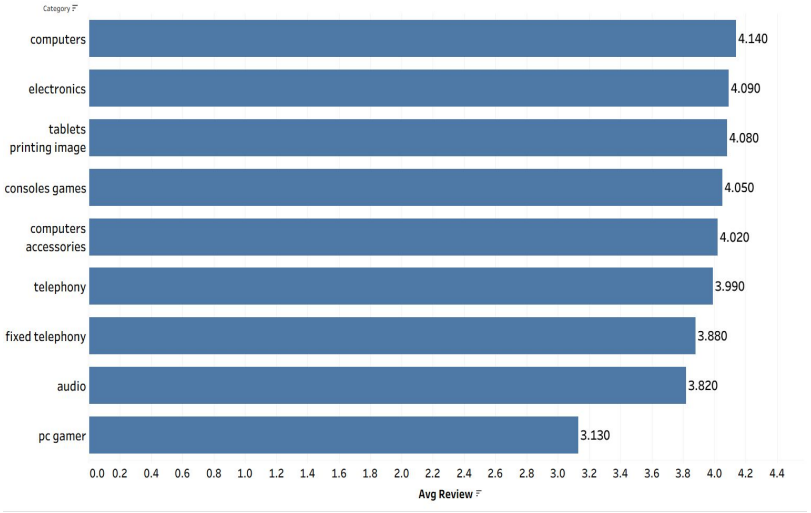

Answer : Customers are satisfied, but only **3%** of tech sells at **Eniac**'s price level.

72% of tech items sell under 100; only 3% sell above 500

Why 500? Eniac's average item costs 540

Most tech categories are rated about 4 out of 5

MAGIST -A Big player to support Small companies

01	MAGIST SELLERS TECH SELLERS	• 3065 • 486	16%
02	MAGIST SELLER REVENUE TECH SELLER REVENUE	• 13.59 M • 1.68M	13.94%
03	SELLERS JOINED IN LAST MONTH	• 139	315 Euro/ Month

Is ENIAC one of them? Revenue 14M per year 1.7 M per Month

PROS OF THE PARTNERSHIP:
An Eniac Seller's Perspective

Key Operational Enablers for Our Expansion Into Brazil

Speed to Market & Agility

- Meeting Our 1-Year Timeline
- Bypassing Custo Brasil (regulatory, tax, customs)

Supply Chain & Cost Efficiency

- Leveraging Scale (economies on fees & shipping)
- Outsourced Back-End Operations (fulfillment, payments)

Brand & Operational Flexibility

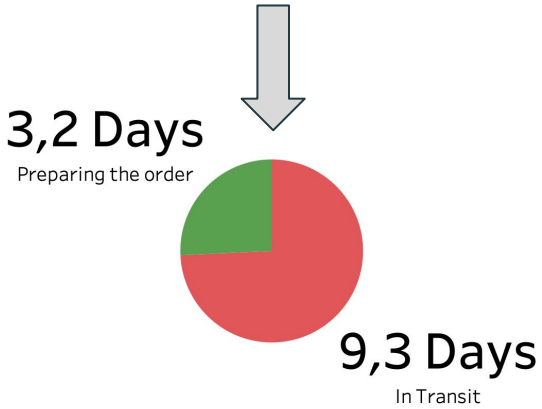

- Flexible Market Testing (reversible entry approach)
- Uncompromised Brand Control (maintain direct web/brand ownership)

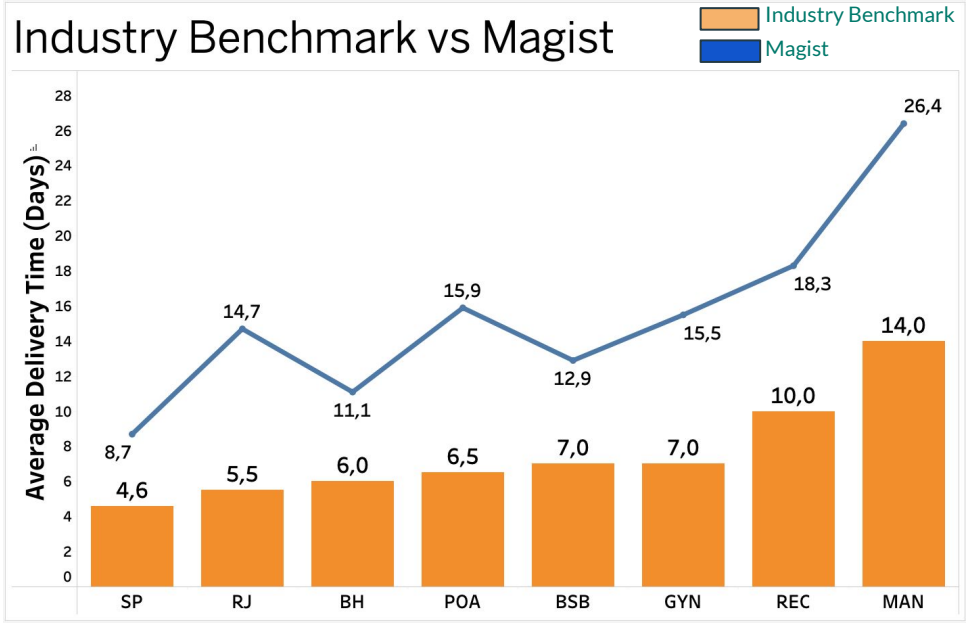

What is the average delivery time of Magist ?

All Product Group

Avg Delivery Day :	12,5 Days

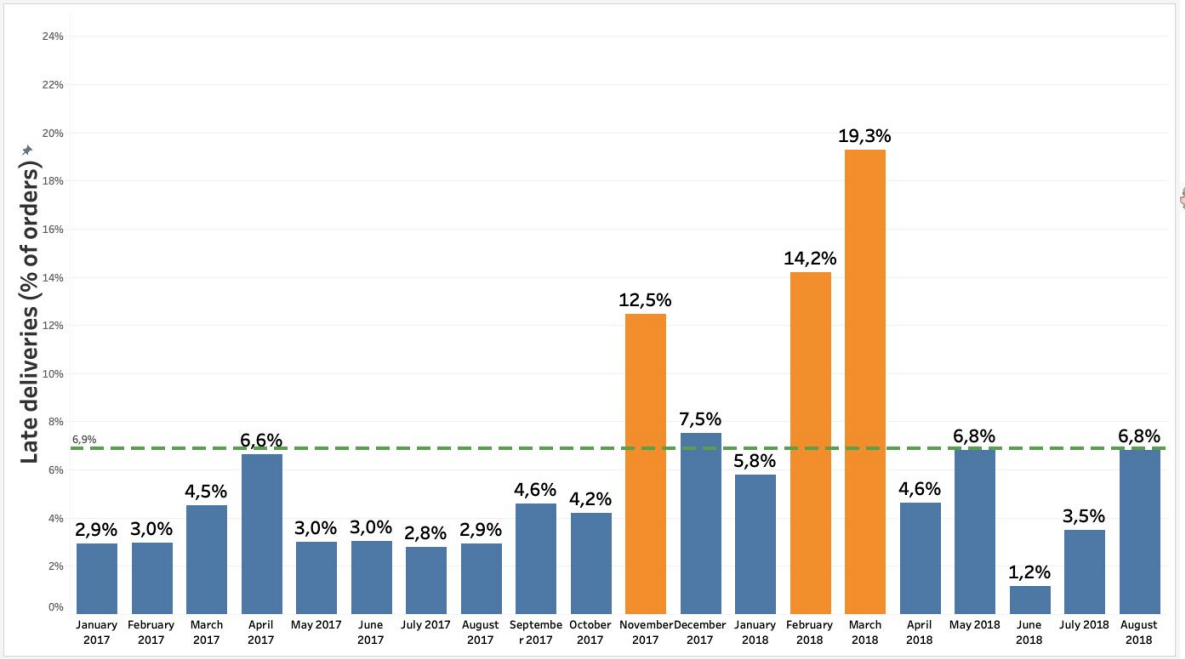

SP = São Paulo (capital and interior combined), RJ = Rio de Janeiro, BH = Belo Horizonte, BSB = Brasília, GYN = Goiânia, REC = Recife, POA = Porto Alegre, MAN = Manaus.

Sources: Industry benchmark: ABComm/Comschool survey, average of 2017 and 2019, via OECD (Organisation for Economic Co-operation and Development), Fig. 3.23.
Magist: case database, 2017-18.

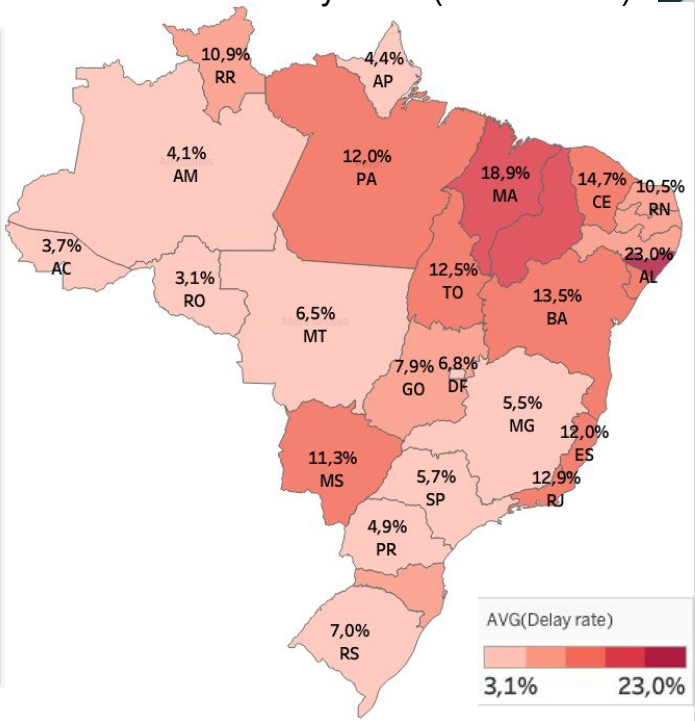

What is the delivery performance of Magist ?

	On Time %	Delay %
Delivery Performance :	93,1 %	6,9%

Magist is slower than the market and not consistent, so it may struggle to meet Eniac's delivery expectations.

Late deliveries by state (% of orders)

Conclusion: “Swipe Left on the 3-Year Deal for now”

- **Recommendation:** No to the 3-year contract but a one year, for now.
- **Why:**
  - Price fit: the average tech item is 109 against Eniac’s 540, and only 3% of tech items cost over 500.
  - Size: all tech on Magist earned about 1.85M in 25 months, while Eniac earns 14M a year.
  - Delivery: about 12.5 days on average, even though 93% arrive on time.
- **What they offer that we need:**
  - Magist provides after-sales services such as stock
  - warehouse management
  - product shipment
  - customer service related to the shipment
  - reducing the cost of fees
  - the bureaucracy involved in getting things started

Summary

❓ To Partner Or Not, Now that is the question

💡Recommendation

📃 **No** to the 3-year contract but a one year, for now.

Overview and Recommendation

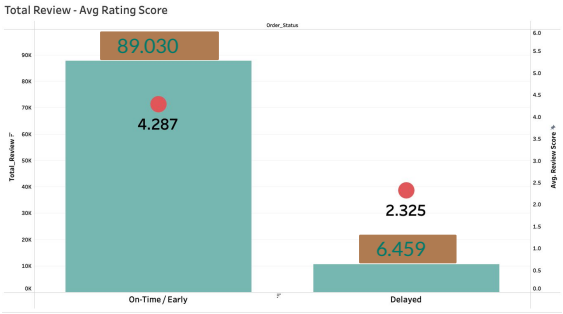

Factor	Magist performance	Eniac benchmark	Business implication
• Average tech item price	109 Euro	540	Significant price gap; product fit needs validation
• Tech Products priced above 500	3% of tech products	100% products curated premium	Limited availability of premium-priced tech items
• Total tech revenue	1.24185 M	14M per year	
• Average delivery time	12.5 days	Customer satisfaction	Delivery speed may be a concern
• On-time delivery rate	93%		Reliability is reasonable, but improvement should be monitored
• Tech Sellers	16%	100	
• Per month revenue	0.08M	1.7 M	NOT A Target group of ANIAC
• Service and Human connect	—	Eniac's Emblem	Not guaranteed
• Recommendation	Do not sign a 3-year contract yet	—	Reduce risk before making a long-term commitment

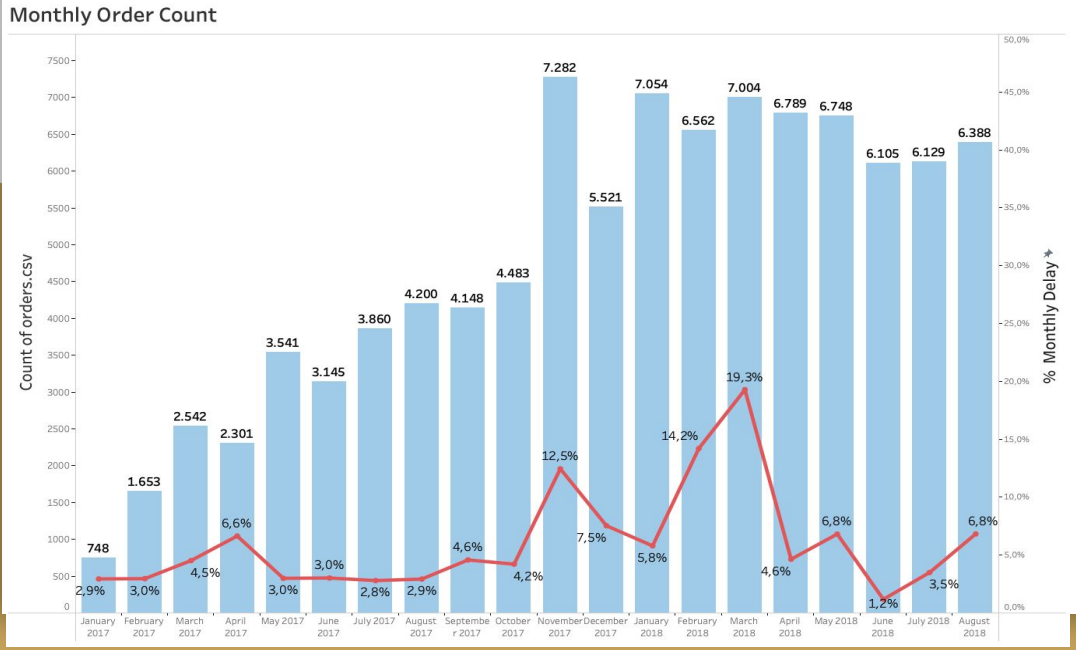

Monthly delivery delays (% of orders)

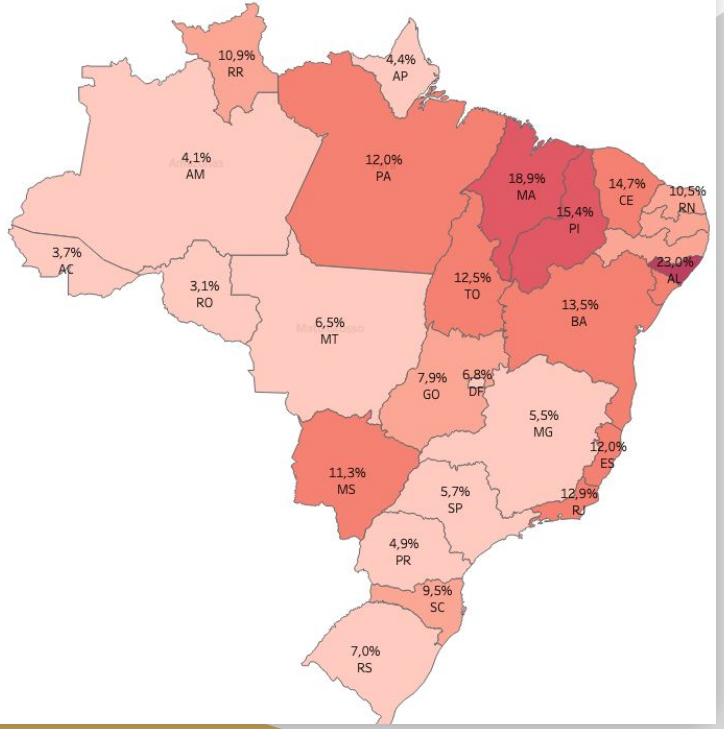

Delivery Performance
